* National Accounts

Sources: Statistics Finland and Bank of Finland.

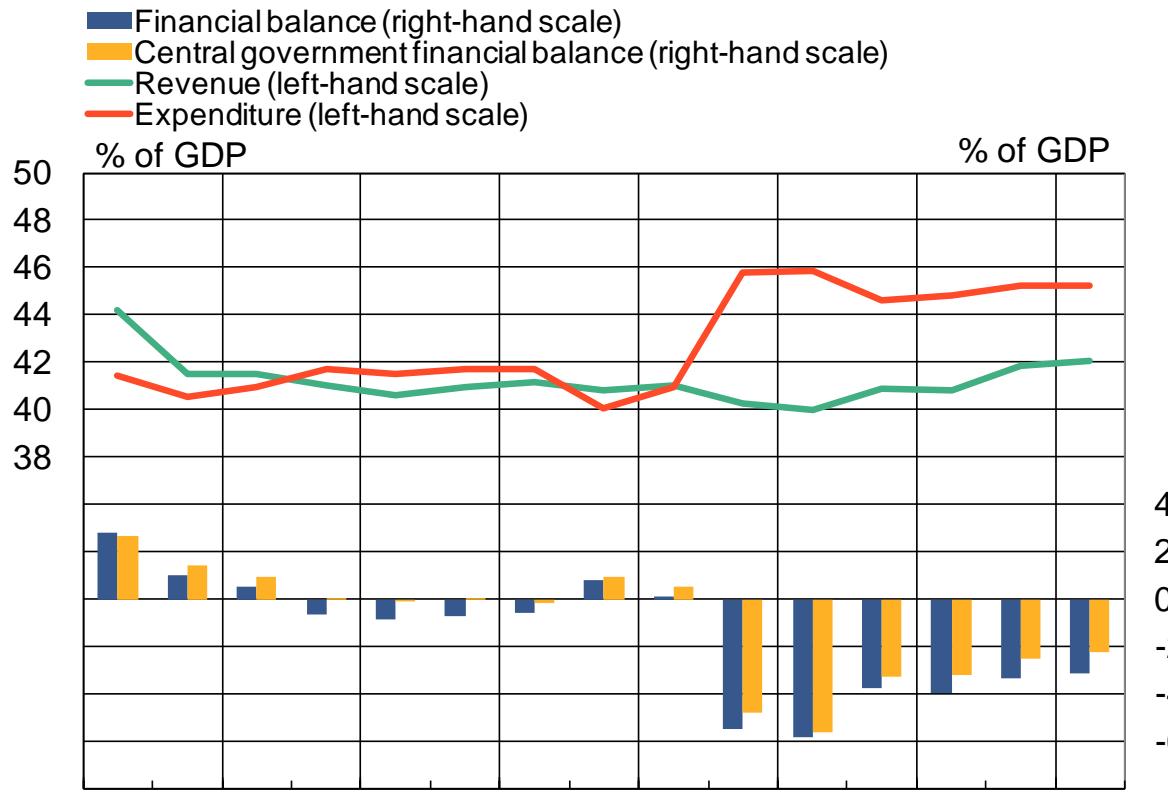

Situation of the open sector must be taken into account in pay agreements of the Finnish labour market

- ◆ ***Exports developed weakly, outlook still weak.***
- ◆ ***Background:***
 - ***Sluggish international growth***
 - ***Special problems of electronics and paper industries***
 - ***Growth in labour costs***
- ◆ ***Export success, open sector employment and the foreign trade balance all require that the competitiveness of the open sector is strengthened.***

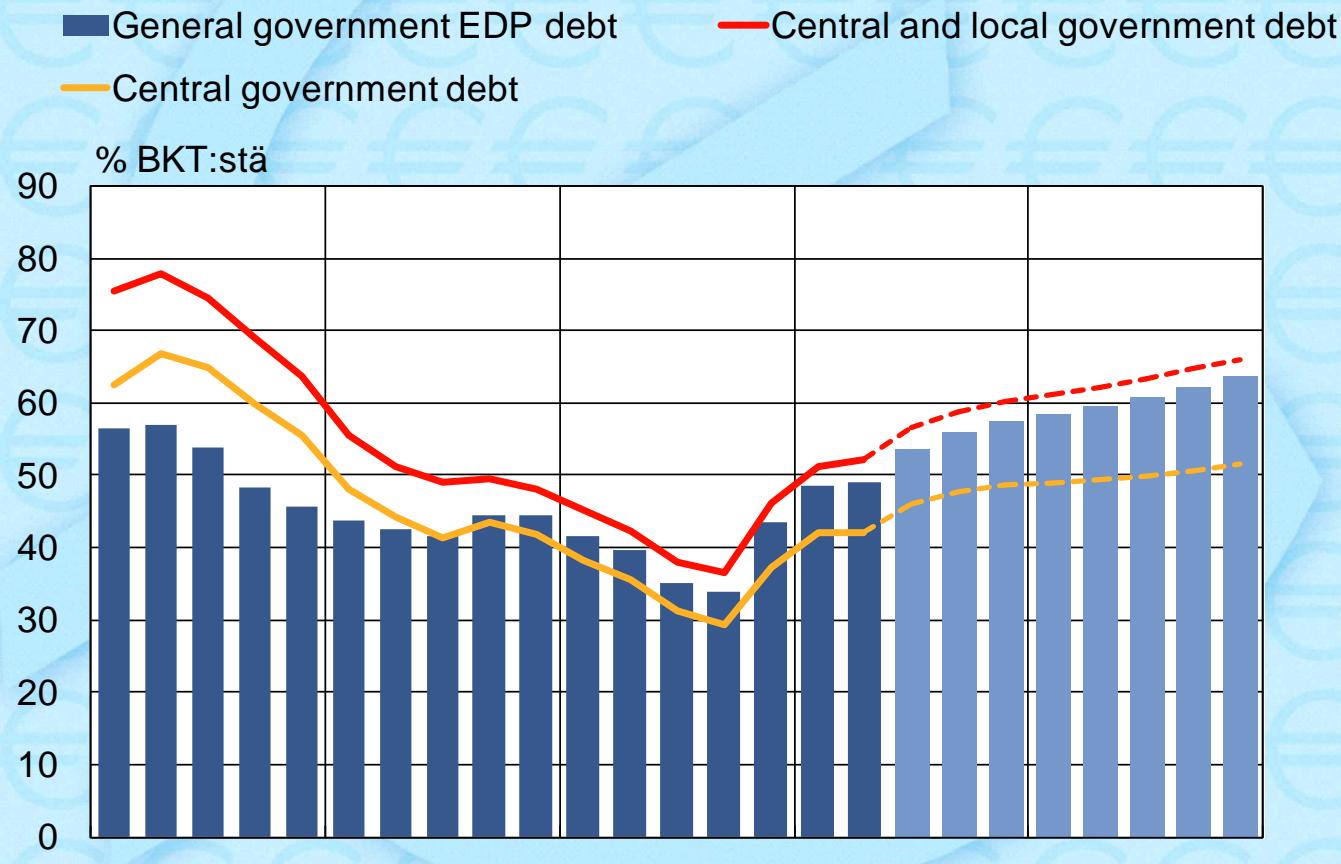

Finnish public finances

Central and local government deficit to contract slightly

Sources: Statistics Finland and Bank of Finland.

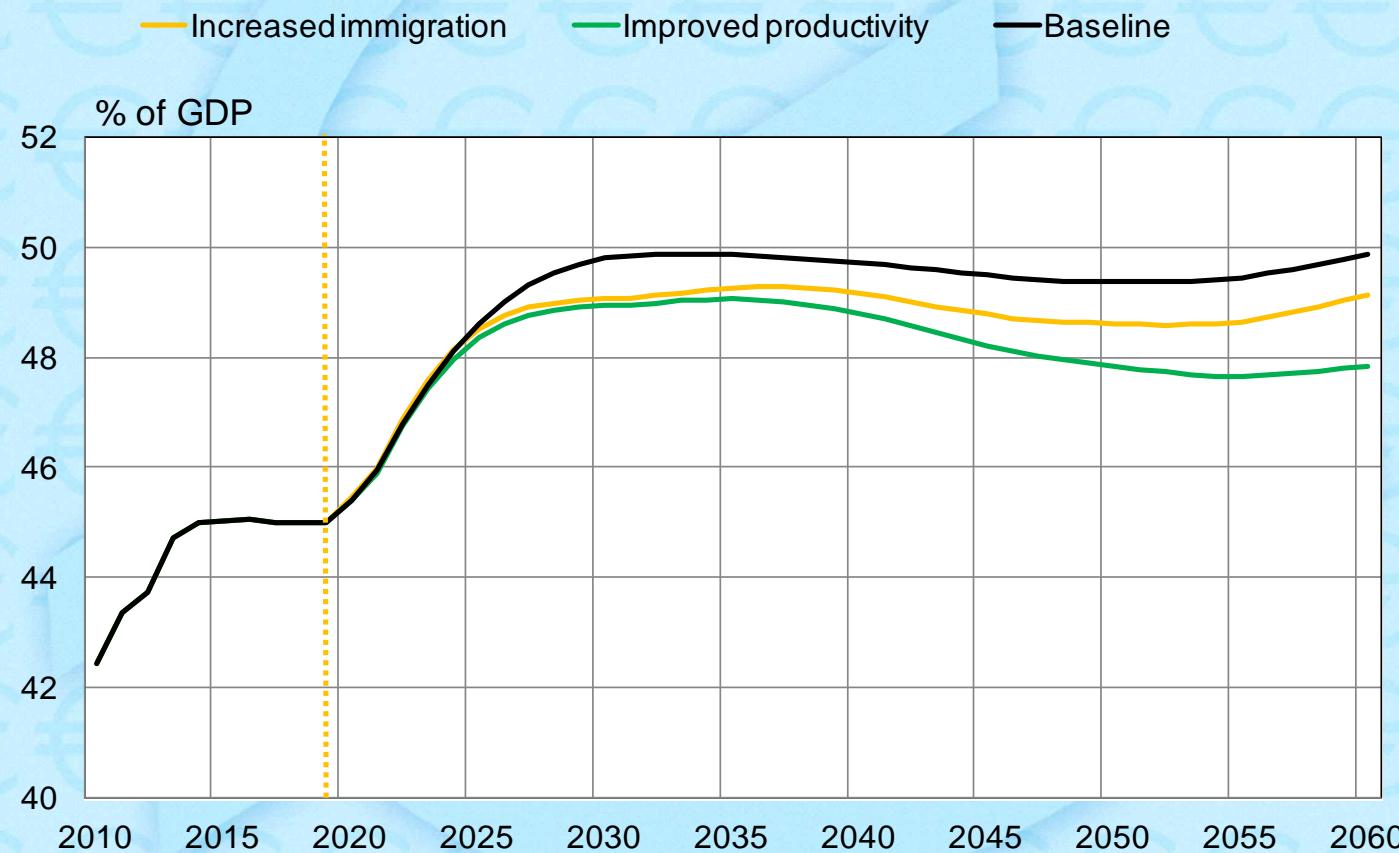

Trend in the public debt ratio will not reverse in Finland without additional measures

Sources: Statistics Finland, State Treasury and Bank of Finland.

Sustainability problem in Finland is substantial

Need for public finance adjustment measured in terms of total tax rate

Sources: Statistics Finland and Bank of Finland.

Finnish fiscal situation: Summary

- ◆ ***The need for adjustment in the public finances is already substantial in the present decade.***
- ◆ ***Long-term sustainability of public finances cannot be achieved without structural measures.***
